PROFICIENCY

Custom steel fabricator.
Crafting steel solutions that feed the world.

EURICA

ABOUT EURICA

Founded in 1986, Eurica Technology and Supply has been at the forefront of delivering exceptional steel fabrication services as a complete turnkey solution. Our factory, located in the heart of Bangkok, is equipped with cutting-edge technology, enabling us to design and produce exquisite, high-quality workpieces.

At Eurica, precision is our hallmark. Our dedicated engineering team combines their expertise and passion to ensure that every piece of work we create is crafted with meticulous attention to detail. With over 30 years of industry experience, we have become the trusted partner for the feed, food, and industrial construction sectors across Thailand and the APAC region.

OUR TEAM

BNI Miracle
BANGKOK THAILAND

OUR KEY INDUSTRIES

ANIMAL FEED PROCESSING

FOOD PROCESSING

CONSTRUCTION

HEAVY INDUSTRY

FACTORY AUTOMATION

We provide comprehensive steel fabrication services with multiple industries for your business.

- Custom-made with no MOQ
- 2D/ 3D design services
- High quality & traceable materials
- High precision, low tolerance
- On-time delivery
- Expertise in handling oversized projects

OUR SERVICES

At **Eurica**, we go beyond simply supplying fabricated steel. We offer comprehensive end-to-end services, providing high-quality custom steel fabrication tailored to your specific needs.

We pride ourselves on achieving near-zero errors and offer expert advice and consultation based on over **30 YEARS OF INDUSTRY EXPERIENCE.**

2D/ 3D DESIGN

Precision in designing your workpieces.

RAW MATERIALS SOURCING

Source materials from traceable origins for durability and reliability.

CUSTOM STEEL FABRICATION

Over 30 years of experience for your exact requirements.

SURFACE TREATMENT & POLISHING

Certified surface treatments and polishing services.

QUALITY CONTROL

Adherence to ISO standards for reliable quality.

ON-SITE INSTALLATION

Seamless, efficient installation by skilled professionals.

ON-TIME DELIVERY

Commitment to punctuality for fast, on-time delivery.

FACTORY CAPABILITY

Whether it's structural, architectural, heavy metal industry or hygienic food processing, Eurica can cater to various aspects with expertise and precision.

- 5-TON OVERHEAD CRANE
- LESS THAN 2MM TOLERANCE FOR SS FABRICATION
- UP TO 6-METER WORKPIECE LENGTH
- 1MM - 30MM STEEL THICKNESS
- MINIMUM STEEL GRADE: SS400, S45C
- 2000 WATTS FIBER LASER CUTTING MACHINE
- CERTIFIED SURFACE TREATMENT & POLISHING SERVICES

TRUSTED BY KEY INDUSTRY PLAYERS

EQUIPMENT MANUFACTURERS

INDUSTRIAL CONTRACTORS

INSTITUTIONS

Custom steel fabricator supporting your entire pet food production line, catering to both large and small-scale operations.

PRODUCTION LINE

- Screw conveyor/ Trough
- Hopper/ Funnels
- Hopper spreader
- Butterfly valve/ Rotary valve
- Compressor tank/ Manifold tank
- Conveyor platform
- Pipes for industrial systems
- Oversized cylindrical components

STORAGE & WASTE MANAGEMENT

- Silo/ Silo cover/ Silo structure
- Custom-made bins
- Custom-made pipe fittings
- Oversized cylindrical components
- Wet scrubber system
- Submersion tanks

STRUCTURAL WORKS

- Reinforcing steel bar
- Bended/ Angle steel bars
- Industrial platform structure
- Car park structure
- Steel roof structure
- Spiral staircase
- Solar panel mounting rail
- Steel grate

TESTIMONIALS

“*Eurica’s supported the creation of food processing production lines following technical design from our global teams. The equipment was delivered as per schedule We’re keen to partner with them to support our Company’s rapid growth in the APAC region.*”

*Mr. Dustin O’Farrell
Managing Director,
Schenck Process FPM (Thailand)*
